

Transcripts Application

Student instructions for using the Transcripts application

Contents

1	Purpose of Transcripts application	1
2	Transcripts application.....	1
2.1	Transcript of Records (ongoing studies).....	2
2.2	Transcript / Certificate	4

1 Purpose of Transcripts application

The Transcripts application enables you to create transcripts of your academic record. You may create and print **sample versions** of certain transcripts, but you still have to ask the responsible department for officially valid documents.

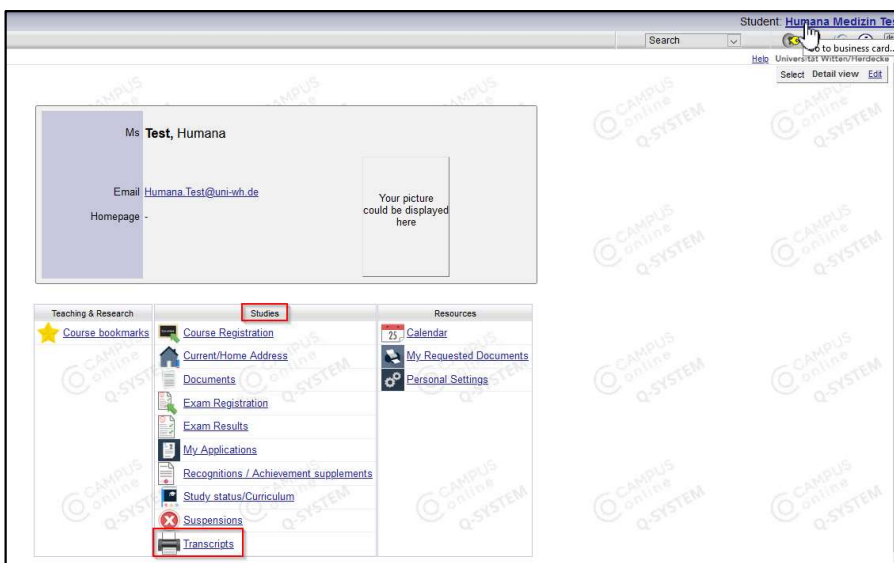

Transcripts of your academic record are statements (= forms) of all courses taken, all grades received and degrees conferred in the context of your degree programme or programmes. They serve various purposes:

- for documenting courses you have taken and grades you have received so far
- as a basis for the transfer of credits to be accumulated in another programme and possibly offered by another university / higher education institution (only officially valid documents issued by the responsible department)
- for submission to the authorities (only officially valid documents issued by the responsible department)

2 Transcripts application

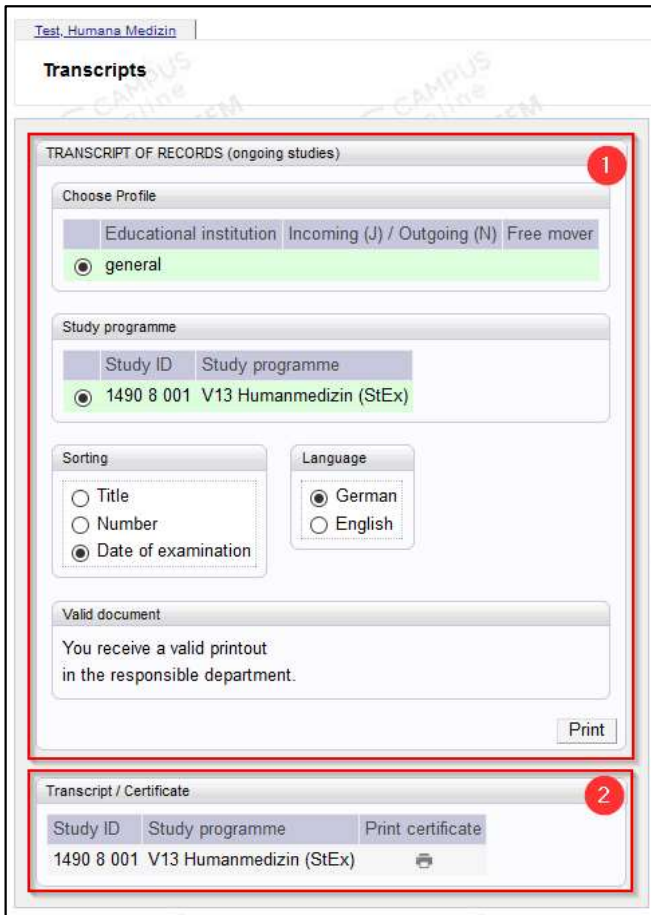

Open the application via your personal Business Card:

Studies → Transcripts:

You may create and print different document versions. In this application you can

- create sample printouts of your Transcript of Records;
- change the sorting of your academic record on the Transcript of Records (ongoing studies).

2.1 Transcript of Records (ongoing studies)

The Transcript of Records (ongoing studies) dialog creates a Transcript of Records stating all courses you have taken and all grades you have received while pursuing your studies. This academic record is printed in a list. The printed statement does not contain any elements of the study and examination regulations version applying to you.

You may sort the list by Title, Number or Date of examination, and compile a German or an English version.

This document may be printed for informational purposes only. The printout is marked with *Testdruck ungültig* (invalid sample printout). You need to ask the responsible department for valid versions required as official documents for a transfer of credits or for submission to the authorities.

2.2 Transcript / Certificate

The Transcript of Records includes all positive learning outcomes you achieved while pursuing your studies and as stated in the study and examination regulations version applying to you: final examinations taken, credit transfers recognised and theses written in the context of your degree programme. The printout of this academic record follows the structure of the study and examination regulations version applying to you.

This document may be printed for informational purposes only. The printout carries a note stating that this document serves as information for students only and that it is not officially valid. You need to ask the responsible department for valid versions required as official documents for a transfer of credits or for submission to the authorities.
